

# To All Ferndown Forest GC Ladies Section Members

## The Weekly Match Booking process

- 1 The Weekly Booking form is posted on our website on a Wednesday evening and the Ladies Section is informed of its availability via our WhatsApp group.
- 2 You have until Friday 1pm to submit your booking.
- 3 Your names are collected and then randomised using a computer, unless we are going out in handicap order.
- 4 We usually give good warning before we randomise your names on Friday evening, once when we actually post the list of ladies we have so far, and secondly before we actually randomise.
- 5 Please look out for these messages on WhatsApp as we

consider them your last chance for us to make any additions.

- 6 Debbie is available to add any names and support any issues you maybe having, so seek her assistance before the Friday cut off as this saves us the lengthy task of creating the start sheet again.
- 7 The number of Tee Times booked is dependant on the number of entries received. All entries are then booked on BRS with unused slots then released back to the club, for other members and pay and play visitors.
- 8 We usually produce a start sheet by Friday evening, this is then posted on the Ladies Section website and on our WhatsApp group.

#### Things to note:

- Recently, despite all the time we have allowed find ourselves redoing the start sheet, over the weekend and posting it again on Tuesday, causing some of you to ask 'Where's the list?' Whilst we know this is new to some of you, and understand late adjustments and unforeseen circumstances are bound to happen occasionally, as of next week if you ask to be entered in the draw after Friday more than three times, sadly you will not be entered into that weeks game. This does not in anyway stop you from being added to the following weeks game, by going through the above process.
- We are sorry to have to impose this rule but we feel you all need to see the order of play in good time to plan your day, also those organising your entries need to set some boundaries and be considered in this process so that they are not working over the weekend.
- If you have been at the back of the order of play for a couple of weeks running, an explanation maybe that, one week a computer programme will have put you there and the other week will be because we've gone out in handicap order. We only change the order of play if the computer program has placed you with the same person

as the week before. So we ask for your patience and to take this into consideration. However if you do find yourself in this situation for a third week please speak to a committee member and we'll take note and endeavour to change the situation.
